

The advertisement features a dark background with a vertical red line down the center. On the left side, there is a blue-handled screwdriver with a brass shaft, labeled 'MS24256R16 REMOVAL TOOL 1/8 GA.'. On the right side, there is a coiled orange and blue cable with connectors. Below the cable, there are several electrical connectors: a large circular multi-pin connector, a smaller cylindrical connector, and a small rectangular connector. At the bottom right, there is a large cylindrical component with a textured surface and a circular face.

Our Pledge to Excellence

Electro Enterprises was founded in 1970 and continues to supply electrical components to the military and aerospace industries around the globe. We are a woman-owned small business and pride ourselves on customer satisfaction, order accuracy, and on-time delivery. A growing network of sales and distribution centers and the latest technological advances in inventory control allow Electro Enterprises to ship thousands of electrical components around the world daily.

Small Business!

CERTIFIED EXCELLENCE

With one of the largest on-the-shelf inventories in the country, our stock is tailored to your military and aerospace needs. The recent addition to the Oklahoma City warehouse has allowed Electro to expand our stocking inventory. From the shelf to the quality assurance department, your parts go through a rigorous inspection process to ensure order accuracy. Our commitment to excellence has earned Electro Enterprises Oklahoma City distribution warehouse the AS9100:2004 Rev B and ISO 9001:2000 certificate rating.

While our commitment to productivity advancement continues, your first interaction when contacting Electro is with a real person. No voice mail or automated answering services, personal one-on-one service is the foundation of our company. Customers prefer doing business with Electro Enterprises due to the personal attention given to them.

OUR GOALS PRESENT & FUTURE

As always, Electro Enterprises Inc. strives to meet and exceed our customers' electrical component needs through on-time deliveries, product quality, and increased in-house productivity. We will continue to enhance our sales and customer service departments by providing them with the latest technology and the newest products. We will remain dedicated to our clients as their sense of connection for quality electrical components.

WHAT IS AS9100 REV. B?

AS9100 Rev. B is an ISO 9001 based standard with additions and interpretations specific to the aerospace industry and an emphasis on safety, reliability and regulatory compliance for aerospace products. Adapted to meet the complex demands of the aerospace industry from commercial aviation to defense, AS9100 includes several additions which the participating aerospace companies felt were necessary to clearly articulate their expectations for aerospace suppliers.

AS9100 includes all of the elements of ISO 9001:2000, as well as additional requirements specific to the aerospace industry.

WHY IMPLEMENT AS9100 REV. B?

The industry changes daily and Electro must adapt to these transformations. In order to keep our status as one of the leading providers of electrical components for the Military and Aerospace industry, we understand the need for top quality products and service. The AS9100 certification helps Electro stay focused on you, our customer, ensuring that your needs are fulfilled in an efficient and quality-oriented way.

ELECTRO'S VALUE ADDED SERVICES

Electro Enterprises offers a variety of **Value Added Services** customized to your company's needs and specifications:

- Kitting** – of customer specific part numbers and bill of materials
- Marking** – our state of the art marking machine works on any part
- Terminal Boards** – we cut terminal boards to size
- Connector Assembly** – we build both military and commercial connectors
- Build to Print** – we will work to build and spec parts specific to your needs
- Fiber Optic Cable Assembly** – customized to your specifications
- Military Packaging, Labeling and Bar Coding** – we can create custom bar codes or labels to your specifications
- Vendor Managed Inventory and Consignment** – let us manage your inventory for you to keep down your inventory costs
